Protecting Your Health Information

This regulation is part of the Health Insurance Portability and Accountability Act or HIPAA and does three primary things:

1. It helps standardize and simplify the way healthcare organizations exchange health care data.
2. It provides consumers with additional protections for getting and maintaining health insurance coverage although, it does not guarantee coverage.
3. It creates new security rules to ensure the safety and privacy of individual and medical records.

Our Pledge Regarding Medical Information

The privacy of your medical information is important to us. We understand that your medical information is personal and we are committed to protecting it. We create a record of the care and services you receive at our office. We need this record to provide you with quality care and to comply with certain legal requirements. In addition, we have a policy in effect that makes every attempt to maintain the confidentiality of all patients' information.

Disclosure of Medical Information

In addition to disclosing your medical information for treatment, payment and health care operations, we may disclose medical information for the following purposes: for a court order, subpoena, discovery request or other lawful process. We may disclose medical information to appropriate authorities if we reasonably believe that you are a victim of abuse, neglect, or domestic violence or the possible victim of other crimes. We may disclose health information when authorized and necessary to comply with laws relating to worker's compensation, auto accidents, personal injury or other similar issues.

If someone calls or comes by, they will not be given any information about your care and/or appointments unless otherwise specified and noted in your file.

We will also be publicly noting your name in our newsletter and/or picture in our lobby unless otherwise specified. Upon becoming a patient, we will be entering your name and email into our database and you may receive our monthly newsletter. If you do not wish to receive our newsletters, please contact our office and advise the receptionist of such. This list will not be sold to any outside agencies.

Your Rights

You have the right to look at or get copies of your medical records and to receive a list of all the times we shared your medical information for purposes other than treatment, payment and health care operations.

Open Therapy Concept

Because of the open therapy concept in this office, it is possible for doctor/patient discussions to be overheard by other patients. Most discussions will involve spinal health, but may also include anything concerning the primary health care of that patient. Please inform doctor or staff if you wish to speak privately.

Notification by Mail or Phone

Patients may be contacted by mail, email or phone unless written notification is requested that contact be only in person.

Complaints

If you feel that your rights have been violated, contact the Office Manager or the U.S. Department of Health and Human Services.

Terms of Acceptance

In order to provide for the most effective healing environment, most effective application of chiropractic procedures, and the strongest possible doctor-patient relationship, it is our wish to provide each patient with a set of parameters and declarations that will facilitate the goal of optimum health through chiropractic.

To that end, we ask that you acknowledge the following points regarding chiropractic care and the services that are offered through this clinic:

- A. Chiropractic is a very specific science, authorized by law to address spinal health concerns and needs. Chiropractic is a separate and distinct science, art, and practice. It is not the practice of medicine.
- B. Chiropractic seeks to maximize the inherent healing power of the human body by restoring normal nerve functions through the adjustment of subluxation(s). Subluxations are deviations from the normal spinal structures and configurations that interfere with the normal nerve process.
- C. The chiropractic adjustment process, as defined in the law of this "jurisdiction" involves the application of a specific directional thrust to a region or regions of the spine with the specific intent of re-positioning misaligned spinal segments. This is a safe, effective procedure applied over one-million times each day by doctors of chiropractic in the United States alone.
- D. A thorough chiropractic examination and evaluation is part of the standard chiropractic procedure. The goal of this process is to identify any spinal health problems and chiropractic needs. If, during this process, any condition or question outside the scope of chiropractic is identified, you will receive a prompt referral to an appropriate provider or specialist, according to the initial indications of the need.
- E. Chiropractic does not seek to replace or compete with your medical, dental or other type(s) of health professionals. They retain responsibility for the care and management of medical conditions. We do not offer advice regarding treatment prescribed by others.
- F. Your compliance with care plans, home and self-care, etc. is essential to maximum healing and optimal health through chiropractic.
- G. We invite you to speak frankly to the doctor on any matter related to your care at this facility, its nature, duration or cost, in what we work to maintain as a supporting, open environment.

I, _____ have read and fully understand the above statements.
(Print name)

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my satisfaction; I therefore accept chiropractic care on this basis.
